
**ANNUAL AWARD MEETING
OF THE C. E. ALKEN PRIZE WINNERS**

WIESBADEN

December 4th through 6th, 1997

Hosts:
Joachim W. Thüroff and Rudolf Hohenfellner

9:00

Welcome*J.W. Thüroff, R. Hohenfellner***1st Session Prostate Cancer I**

9:10–9:40

State-of-the-Art

Radical prostatectomy - positive surgical margins and quality of life issues, finding the correct balance

M. Soloway

9:50–10:00

Detection of (micro-)metastases of human cancer cells in the nude mouse model: a generally applicable RT-PCR method

Schamhart, D.J.H. & Kurth, K.H.

10:05–10:15

Early tumor cell dissemination in patients with localized carcinoma of the prostate.

Melchior, S.W., Lange, P.H. & Vessella, R.L.

10:20–10:30

The assay comparison study for prostate-specific antigen

Semjonow, A. & Hertle, L.

10:35–11:00

Coffee break**2nd Session Miscellaneous**

11:00–11:10

Colon cancers in urinary diversion — new answers to the problem.

Kälble, T.

11:15–11:25

Molecular genetics of unilocular and multifocal urothelial tumors.

v. Knobloch, R., Schullerus, P., Riedmüller, H., Kovacs, G. & Kälble, T.

11:30–11:40

Invited lecture

Pharmacological renal vasodilation in the prevention of posts ischemic acute renal failure

Humke, U., Neisius, D., Ziegler, M.

11:45–11:55

How necessary is the contralateral biopsy in patients with testis tumors?

Müller, S.C. & Albers, P.

12:00–14:00

Lunch

3rd Session *Bladder Cancer*

- 14:00–14:30 Lessons learned in the management of Ta, T1 and CIS of the urinary bladder
State-of-the-Art
Soloway, M.
- 14:40–14:50 Brachytherapy in muscle invasive bladder cancer: bladder preservation in selected cases.
v.d. Veen, H.J. & Kurth, K.H.
- 14:55–15:05 Can p53 guide the decision how to treat pT1, GIII transitional cell tumors of the bladder ?
Albers, P. & Müller, S.C.
- 15:10–15:25 **Coffee break**

4th Session *Prostate Cancer II*

- 15:30–15:40 Multidrug resistance in prostate cancer
v. Brussel, J. & Mickisch, G.H.
- 15:45–15:55 Drug resistance genes in prostatic carcinoma
Siegsmond, M., Schummer, B., Steidler, A., Köhrmann, K.U. & Alken, P.
- 16:00–16:10 Experimental suramin induced decrease in prostate-specific antigen expression. A valuable endpoint fro clinical trial ?
Thalmann, G. & Danuser, H.

Presentation of the C.E. ALKEN Prize

- 9:00 **Award presentation**
J.W. Thüroff
- 9:15–9:45 Selective pharmacological manipulation of the smooth muscle tissue of the genitourinary tract — experimental and clinical studies.
Stief, Ch., Truss, M.C., Becker, A.J., Ückert, S., Shulz-Knappe, P., Forssmann, W.G., Jonas, U.

5th Session Surgery

- 9:50–10:10 Extended pelvic surgery in gynecology: surgical techniques, indications and clinical results
Invited lecture
Hoeckel, M.
- 10:15–10:25 Surgical and psychosexual long-term results of a penile plication procedure.
Mickisch, G.H. & Groenendijk, P.
- 10:30–10:45 The future urologist — still a surgeon?
J.W. Thüroff
- 10:50-11:05 **Coffee break**
- 11:10–11:15 Minimizing stomal stenosis in continent cutaneous urinary diversion using the suprafascial mucocutaneous anastomosis technique.
Roth, S. & Hertle, L.
- 11:20–11:30 Life-donor kidney transplantation — Mansoura experience with 1000 cases.
Invited lecture
El-Mekresh, M.M. & Ghoneim, M.

6th Session Urodynamics

- 11:35–12:05 The central control of micturition and continence in cats and humans
Invited lecture
Blok, B.F.
- 12:10–12:20 Sacral nerve stimulation in urinary incontinence.
Jonas, U., Grünewald, V. & the members of the international study group:
- 12:25–12:35 Pharmacological effects on ureter motility by topical drug administration
Danuser, H.
- 13:00 **Farewell Lunch**
