
**ANNUAL AWARD MEETING
OF THE C.E. ALKEN PRIZE WINNERS**

MUNICH

November 30th through December 2nd, 2000

Host:

Ferdinand Eisenberger

9:00 **Welcome**
Eisenberger, F.

1st Session: Prostate cancer (part 1)

9:10 - 9:30 The challenge of radical prostatectomy: the effects of technique on outcomes

Invited lecture Scardino, P. T.

9:35 – 9:45 Influence of cell cycle associated proteins on the development of prostate carcinoma

Machtens, S., Kuczyk, M. A., Stief, C. G., Jonas, U.

9:50 – 10:00 Angiogenic assessment of tumor aggressiveness in prostate cancer

Jaeger, T. M., Siegsmond, M., Rabe, J., Grobholz, R., Jünemann, K. P., Alken, P.

10:05 – 10:15 Restoration of the cadherin-catenin pathway in an alpha-catenin negative prostate cancer cell line leads to complete reorganization of cell structure – a model of tensegrity

Paul, R., Ewing, C. M., Coffey, D. C., Isaacs, W. B.

10:20 – 10:35 Coffee break

2nd Session: Operative Urology (part 1)

10:35 – 10:55 Balanitis xerotica obliterans – a plastic surgeon's experience

Invited lecture Bracka, A.

11:00 – 11:10 Cytoreductive surgery for recurrent renal cell carcinoma

Stief, C. G., Matuschek, E., Jonas, U.

11:15 – 11:25 Omentum majus in operative urology

Kälble, T.

11:30 – 11:40 Repair of ureteral defects with single and double reconfigured colonic segments

Ubrig, B., Waldner, M., Eggersmann, C., Roth, S.

Scientific Meeting

11:45 – 12:05 Laterally extended endopelvic resection (LEER) – indications and techniques

Invited lecture Höckel, M., Hohenfellner, R.

12:30 – 14:00 Lunch

3rd Session: Prostate cancer (part 2)

14:00 – 14:10 Perineal complications after perineal prostatectomy
Fichtner, J., Gillitzer, R., Thüroff, J. W.

14:15 – 14:25 Surgical margins after radical prostatectomy for prostate cancer
Dimitrijevic, D., Eisenberger, F.

4th Session: Bladder cancer

14:30 – 14:40 A biological approach to inhibit implantation of bladder cancer
Böhle, A., Jurczok, A., Wulf, T., Ardelt, P., Brandau, S., Jocham, D.

14:45 – 14:55 Brachytherapy for bladder cancer – an update
Kurth, K. H., vd Veen, H., Reisman, C.

15:00 – 15:10 Chemotherapy of bladder cancer: experience with new drugs
Müller, S. C., Steiner, G., Perabo, F., Alken, P.

15:15 – 15:25 Photodynamic diagnosis (PDD) of bladder cancer – is it useful?
van Moorselaar, R. J.

15:30 – 15:50 Coffee break

5th Session: Operative Urology (part 2)

15:50 – 16:00 The pelvic plexus and antireflux surgery – topographical considerations and clinical consequences
Leißner, J., Allhoff, E. P., Hohenfellner, R.

16:05 – 16:15 Value of cytoreductive tumornephrectomy for metastatic RCC in the era of modern immunotherapy
Mickisch, G. H. J.

16:20 – 16:30 Long term results of trigone-sparing substitution enterocystoplasty for interstitial cystitis (IC) in woman
van Ophoven, A., Hertle, L.

6th Session *Miscellaneous (part 1)*

16:35 – 16:45 Videomicroscopic imaging of pyelo-ureteral peristalsis in rats during simultaneous cystometry
Tillig, B., Constantinou, C. E.

16:50 – 17:00 Evaluation of asymptomatic gross hematuria in patients receiving warfarin or platelet aggregation inhibitors
Schulze, H., Ludas, R.

17:05 – 17:15 Analysis of urological tumours using genomic assay technology
Tanke, H. J.

Presentation of the C. E. ALKEN PRIZE

- 9:00 **Award presentation**
Thüroff, J.W.
- 9:15 – 9:35 A standardized model for in vivo investigations of anticholinergic effects on bladder function, salivation and electromyographic characteristics of the detrusor
Award lecture *Scheepe, J. R., Braun, P. M., Bross, S., Jünemann, K. P., Alken, P.*
- 9:40 – 10:00 Sacral root stimulation for bladder evacuation in dogs: selective rootlet neurotomy and local hyperthermia
Award lecture *Dahms, S., Muschek, M., Piechota, H.-J., Gleason, C. A., Hohenfellner, M., Tanagho, E. A.*

7th Session: Miscellaneous (part 2)

- 10:05 – 10:15 Virtual cystoscopy with MRI for the diagnosis of bladder tumors
Steiner, G., Alken, P., Müller, S. C.
- 10:20 – 10:30 Men's health research in Germany
Eickenberg, H.-U.
- 10:35 – 10:45 Atrionatriuretic peptide in prevention and treatment of acute renal failure: experimental results and review of the literature
Humke, U., Gebhard, T.
- 10:50 – 11:00 Growth failure revisited - a second look at the metabolic consequences of urinary diversion in childhood
Gerharz, E., Woodhouse, C.

11:05 – 11:30 Coffee break**8th Session: Neurourology / Incontinence**

- 11:30 – 11:40 Stress incontinence in the animal model – can histological investigations reveal functional changes?
Sievert, K. D., Dahms, S., Lue, T.F.

11:45 – 11:55 Some new observations on the central effects of urinary bladder neuromodulation
Blok, B.

9th Session: *Benign prostatic hyperplasia*

12:00 – 12:10 The IPSS does not correlate with pressure flow data of urodynamically obstructive BPH-patients, but pressure flow data have a predictive value on treatment outcome
Danuser, H., Studer, U. E.

12:15 – 12:25 DHT induced prostate growth and its restrain with Tadenan
Constantinou, C. E.

10th Session: *Kidney cancer*

12:30 – 12:40 Expression of the human telomerase reverse transcriptase is not related to telomerase activity in normal and malignant renal tissue
Rohde, V., Wullich, B., Humke, U.

12:45 – 12:55 Oxygen consumption in renal cell cancer and benign renal parenchyma
Otto, T., Suhr, J., Rübber, H.

13:00 Farewell Lunch
