
***32nd ANNUAL AWARD MEETING
OF THE C. E. ALKEN PRIZE WINNERS***

DÜSSELDORF

November 29th through December 1th, 2007

- 09.00 **Welcome**
Th. Otto
- HANS FLOHR Lecture**
- 09.05 - 9.30 *Neue Wege zum Erfolg*
B. Peters
- Prostate Cancer / Introduction**
- 09.30 - 9.45 *Das lästige "Dingsda"*
R. Hartung
- 10.00 - 10.30 **Coffee Break**
- 10.30 - 12.15 **1st session Prostate Cancer-BPH / Clinical Research**
- 10.30 - 10.45 *Integrated care for prostate cancer-*
critical review after 3 years experience
J. Fichtner
- 10.45 - 11.00 *Salvage prostatectomy after HIFU and radiotherapy*
J.-U. Stolzenburg
- 11.00 - 11.15 *New approach for the tension and energy-free dissection*
of the neurovascular bundles by robotic-assisted
laparoscopic radical prostatectomy
A. Mattei
- 11.15 - 11.30 *Extraperitoneal robotic assisted transvesical adenomenucleation*
in BPH
Early study results
H. John
- 11.30 - 11.45 *Repair in distal hypospadias: to stent or not?*
A. Pycha
- 11.45 - 12.00 *Grade III incontinence after radical prostatectomy-*
What can we learn from pitfalls?
Th. Otto
- 12.00 - 12.15 *Molecular triggered therapy in hormone refractory prostate cancer*
A new approach to improve outcome
A. Heidenreich
- 12.30 - 14.00 **Lunch**

- 14.00 - 16.15 **2nd session Kidney/Bladder**
- 14.00 - 14.15 Long term outcome of living kidney donors
A retrospective single center study
U. Humke
- 14.15 - 14.30 Failure of non operative management in renal injuries
E. Serafetinides
- 14.30 - 14.45 Bladder cancer in Africa
M. M. Wishahi
- 14.45 - 15.15 **Coffee Break**
- 15.15 - 15.30 To stent or not to stent perioperatively the uretero-ileal
anastomosis of ileal orthotopic bladder substitutes
and ileal conduits? Results of a prospective randomized trial.
H. Danuser
- 15.30 - 15.45 Radical surgery in children and adolescents
with rhabdomyosarcoma of the lower urinary tract using
orthotopic bladder substitution and heterotopic urinary
diversion-a single institution experience.
R. Stein
- 15.45 - 16.00 Factors contributing to detrusor overactivity -
Obstruction, hypertrophy and afferent nerve stimulation
A. Schröder
- 16.00 - 16.15 The “PANZAR - project”:
A multicenter study of tumorbiological patterns in papillary
renal cell carcinoma. How can we improve targeted therapy ?
C. Wülfing

- 9.00 *Eldering Ensemble*
- 9.10 **C. E. ALKEN PRIZE: AWARD PRESENTATION**
J. W. Thüroff
- 9.20 - 9.40 **C. E. ALKEN PRIZE: AWARD LECTURE**
CpG island hypermethylation as a diagnostic and prognostic marker for prostate cancer.
P. J. Bastian
- 9.40 **C.E.ALKEN PRIZE: AWARD PRESENTATION**
J. W. Thüroff
- 9.50 - 10.10 **C. E. ALKEN PRIZE: AWARD LECTURE**
Expression of gonadotropin releasing hormone type II is regulated by the androgen receptor in prostate cancer
V. J. Gnanapragasam
- 10.10 - 10.20 *Eldering Ensemble*
- 10.30 - 10.45 **Coffee Break**
- 10.45 - 12.15 **3rd session Experimental Research**
- 10.45 - 11.00 Oral diagnostics: the future source for detection of infectious disease and cancer
H. Tanke
- 11.00 - 11.15 Diagnostic value of contrast enhanced ultrasound compared to 3T-MRT spectroscopy and histology
M. Seitz
- 11.15 - 11.30 Characterization of muscle derived cells for sphincter repair
H. Gerullis
- 11.30 - 11.45 Lymph vessel architecture and lymphangiogenesis in transitional cell carcinoma:
Novel insights into tumor behaviour and the formation of lymphatic metastases?
C. Bolenz
- 11.45 - 12.00 Role of MMP-9 in experimental models of prostate cancer bone metastases
C. Wiesner
- 12.00 - 12.15 The role of micro RNA's in cancer: no small matter
B. Kneitz
- 12.30 **Farewell Lunch**
